

## HURRICANE MITIGATION APPLAICATION

Job Address: \_\_\_\_\_

Florida Building Code Existing Building section 706.8 requires that when a roof covering on an existing structure (residential or commercial) with a sawn lumber, wood plank or wood structural panel roof deck is removed and replaced that has an insured value of \$300,000 or more or, if the building is uninsured or for which documentation of insured value is not presented, has a just valuation for the structure for purposes of ad valorem taxation of \$300,000 or more, than the roof to wall connections shall be improved.

A. Is the structure insured value \$300,000 or more?  Yes  No

If No, provide documentation (Broward County Property Appraisers page or insurance declaration page) as to value and the roofing qualifier may sign this form as complete, otherwise continue to B.

B. Was the structure permitted under the 1994 Edition of the South Florida Building Code or a latter code?  Yes  No

If Yes, provide the permit application or documents that verify the permit application date on or after September 1, 1994 and the roofing qualifier may sign this form as complete, otherwise continue to C.

C. Either: (choose one)

Attach a Roof to Wall Connection Affidavit signed by a licensed contractor (General, Building, Residential), an Engineer, an Architect or a qualified person certified under FS 468.

Attach a permit application by a licensed contractor (General, Building, Residential) for re-strapping that includes a plan for the proposed work showing the scope of work and the location of the work, with a Special Inspector designation form for the inspection and certification of the work to comply with FBC Existing 706.8.1.

If the cost of retrofitting all the roof to wall connections exceeds 15% of the re-roofing cost, then the priorities are given to retrofit just the rafters/trusses 6' from the gable end or the hip king rafters/trusses and if the priorities cannot be done for 15% of the re-roofing cost, then no work is required; an estimate prepared by a licensed contractor (General, Building, Residential), an Engineer, or an Architect showing that the minimum priorities cannot be done for 15% of the re-roofing cost. FBC Existing 706.8.1.7
